

CHINMAY RAM KODALI

GAME & LEVEL DESIGNER • ATMOSPHERIC HORROR

kodalichinmayram@gmail.com | +91 9494673546 | Hyderabad, Telangana, India

Portfolio: chinmay-portfolio-sigma.vercel.app | LinkedIn: linkedin.com/in/kodali-chinmay-ram-659966370

SUMMARY

Game Designer and Level Designer focused on atmospheric horror, environmental storytelling, and level pacing, with shipped titles on PC and itch.io (120K+ views and 20.8K+ downloads across titles; Sermon: 59,200+ views, 11,800+ downloads). Sermon selected for Microsoft's Xbox Developer Acceleration Program (DAP). Experienced across concepting, GDD, grey boxing, prototyping, and release in solo and team settings.

EXPERIENCE

Game Designer Intern — IDZ Digital
Feb–Jun 2026

Remote (Work from Home)

- Designed and prototyped horror game concepts while supporting the studio's move into the horror genre
- Contributed to level layouts, atmosphere design, gameplay pacing, and environmental storytelling
- Collaborated with developers and artists to turn design intent into playable builds

PROJECTS

Sermon — Unity 3D, Psychological Horror
2025

Level & Environment Designer · Team: Vinil (Game Designer & Programmer)

- Designed full level layouts and player flow for slow-burn, sleep-paralysis-inspired horror
- Used lighting, fog, shadows, and prop composition to shape atmosphere and surreal dread
- Supported the dreamlike narrative through environmental storytelling
- Committed level and environment updates independently in a shared GitHub workflow

Selected for Xbox DAP · 59,200+ views · 11,800+ downloads (itch.io)

Oblation — Unity 3D, Psychological Horror
2026

Level & Environment Designer · Team: Vinil (Game Designer & Programmer)

- Designed level layouts and player flow for horror centered on loss, grief, and ritual
- Shaped familiar-yet-uneasy domestic spaces through boundaries, walls, props, lighting, and composition
- Structured playable spaces to support intimate dialogue, ritual mechanics, and guilt-driven pacing

17,500+ views · 2,740 downloads (itch.io)

Septem: The Preparation — Unity 3D, Psychological Horror
2026

Level & Environment Designer · Team: Vinil (Game Designer), Sushant (Programmer)

- Designed level layouts and pathing to create subtle tension in ordinary spaces
- Used clues, implication, and prop placement to communicate story through the environment
- Handled scene composition to support an unsettling exploration loop

34,300+ views · 4,081 downloads (itch.io)

Housebound — Unity 3D, First-Person Horror
2025

Solo Developer — Game Designer & Level Designer

- Built a complete first-person horror game solo in 2 days, covering concept, level design, lighting, UI, and release
- Designed the gameplay loop, AI behaviour, event sequencing, and HUD interactions end-to-end

The Pursuit of Happiness — Global Game Jam (48-hour)
2024

Game, Level & Environment Designer · Team: Ashish (Game Designer), Bhavesh (Programmer), Sameer (UI/UX)

- Designed the full maze layout and obstacle placement to drive tension and player flow
- Used fog, lighting, and pacing to shape suspense; created a promotional video of gameplay highlights

IN DEVELOPMENT

- **Fragments of Dread: Mother's Whisper** — PSX-style horror, exploration, multiple endings
- **Fragments of Dread: Burger Piz** — horror, AI voice mimicry, dynamic environment shifts
- **Ward 13** — atmospheric hospital horror, psychological tension

SHIPPED

Sermon
Oblation
