- Graphic design, photo editing, video editing

Languages

- English (Fluent)
- Telugu (Fluent)
- Hindi (Intermediate)

PROJECTS

Housebound (Solo Project, 2025)

- Developed a first-person horror game in Unity within 2 days.
- Designed all levels, player movement, lighting, fog, and environmental storytelling.
- Built custom UI interactions and used graphic/photo editing for immersive visuals.
- Published on Itch.io with a polished gameplay loop.
- Game Link: <https://arcadian-xp.itch.io/housebound>

The Pursuit of Happiness (48-Hour Game Jam, 2023)

- Collaborated in a 4-member team to create a horror escape level.
- Designed maze layout, built fog effects, and placed thematic elements.
- Directed gameplay pacing and edited the promotional video.
- Delivered a complete playable prototype under time pressure.

SERMON (Psychological Horror Game, Windows; Released August 2025)

- Role: Level Designer & Environment Designer
- Designed and constructed multiple level layouts for a three-floor apartment building setting, ensuring cohesive flow and pacing.
- Developed environmental assets, lighting, and spatial details to heighten tension and immersion.
- Game Link: <https://troj4nblazing.itch.io/sermon>

IN DEVELOPMENT

Fragments of Dread: Mother's Whisper (Episode 1) — PSX-style Horror Game (Solo Project)

- PSX-style environment to create an immersive and unsettling atmosphere.
- Developing a 10–15 minute playable loop featuring exploration, escalating scares, and multiple endings.
- Managing all aspects of level flow, lighting, sound cues, and spatial design to enhance player engagement.
- Leading concept development, visual design, and gameplay systems as a solo developer.

Fragments of Dread: Burger Piz (Episode 2)

- Horror game with AI voice mimicry and dynamic visual shifts.

Ward 13

- Atmospheric hospital horror with psychological horror themes.

Around

- Minimalist horror exploration game focused on tension and unease.
