PROJECTS

SERMON (ID@Xbox Supported Title, 2025) –

Level Designer & Environment Designer |

- Created tense, claustrophobic levels and atmospheric environments for a sleep-paralysis inspired horror experience
- Project selected for the Xbox Developer Acceleration Program (DAP) – recognition from Microsoft for high-potential indie titles
- Worked in a 2-person team with Vinil (Game Designer & Programmer)
- Released on [itch.io](https://troj4nblazing.itch.io/sermon): <https://troj4nblazing.itch.io/sermon>

Housebound (Solo Project, 2025):

First-person horror game built in 2 days. Complete level design, lighting, fog, UI interactions, and published on [Itch.io](https://troj4nblazing.itch.io/housebound).

IN DEVELOPMENT

Fragments of Dread: Mother's Whisper

PSX-style horror episode with exploration and multiple endings.

Fragments of Dread: Burger Piz

Horror game with AI voice mimicry and dynamic environment shifts.

Ward 13

Atmospheric hospital horror with psychological tension.
