PROFESSIONAL SUMMARY

Game Designer and Level Designer with multiple shipped and published titles across PC and itch.io, and console development experience on Xbox Series X|S. Selected for **Microsoft's Xbox Developer Acceleration Program (DAP)** — recognition awarded to high-potential indie titles. Specialises in atmospheric horror, environmental storytelling, level pacing, and rapid prototyping. Experienced in the full pipeline from concept and GDD through to production and release, in both solo and collaborative team environments.

EXPERIENCE

Game Designer Intern

Feb 2026 – June 2026

IDZ Digital · Remote (Work from Home)

- Designed and prototyped horror game concepts as the studio expanded into the horror genre
- Contributed to level layouts, atmosphere design, gameplay pacing, and environmental storytelling
- Collaborated directly with developers and artists to translate design vision into playable builds

SHIPPED PROJECTS

SERMON — ID@Xbox Supported Title

2025

★ **Microsoft Xbox Developer Acceleration Program (DAP) — Selected as High-Potential Indie Title**

Level Designer & Environment Designer · Team: Vinil (Game Designer & Programmer)

- Designed full level layout for slow-burn, sleep-paralysis-inspired tension and player flow
- Crafted atmospheric environments using lighting, fog, shadows, and prop composition to build surreal dread
- Built environmental storytelling to support a dreamlike, psychological horror narrative
- Collaborated via shared GitHub repository — committing level and environment updates independently
- 59,200+ views · 11,800+ downloads on itch.io

[itch.io: troj4nblazing.itch.io/sermon](https://troj4nblazing.itch.io/sermon)

The Pursuit of Happiness

2023

Game, Level & Environment Designer · Global Game Jam (48-hour) · Team: Ashish (Game Designer), Bhavesh (Programmer), Sameer (UI/UX)

- Designed full maze layout and obstacle placement for tension and player flow
- Controlled atmosphere with fog, lighting, and pacing for suspense
- Created promotional video showcasing gameplay highlights and tension

Oblation

2026

Level Designer & Environment Designer · Team: Vinil (Game Designer & Programmer)

- Designed level layouts and player flow to support slow-burn tension and emotional narrative progression around themes of loss, grief, and ritual
- Placed environmental boundaries, walls, and props to create familiar-yet-uneasy domestic spaces that gradually turn oppressive
- Structured playable spaces to complement intimate dialogue, ritual mechanics, and guilt-driven horror pacing
- Curated lighting, prop composition, and atmosphere to reinforce core psychological tone alongside the programmer
- 17,500+ views · 2,740 downloads on itch.io

[itch.io: troj4nblazing.itch.io/oblation](https://troj4nblazing.itch.io/oblation)

SEPTEM: The Preparation

2026

Level Designer & Environment Designer · Team: Vinil (Game Designer), Sushant (Programmer)

- Designed level layout emphasising subtle tension and player pathing through ordinary, psychologically charged spaces
- Integrated environmental storytelling to reveal narrative through clues, implication, and prop placement
- Handled scene composition for a seamless, unsettling exploration experience built on atmospheric dread
- 34,300+ views · 4,081 downloads on itch.io

[itch.io: troj4nblazing.itch.io/thepreparation](https://troj4nblazing.itch.io/thepreparation)

Housebound

2025

Solo Developer — Game Designer & Level Designer

- Built complete first-person horror game solo in 2 days — concept, level design, lighting, UI, and itch.io release
- Designed full gameplay loop, AI behaviour, event sequencing, and HUD interactions end-to-end

IN DEVELOPMENT

Fragments of Dread: Mother's Whisper	PSX-style horror · exploration · multiple endings
Fragments of Dread: Burger Piz	Horror · AI voice mimicry · dynamic environment shifts
Ward 13	Atmospheric hospital horror · psychological tension

SKILLS

Game Design: Level design, Gameplay pacing, Environmental storytelling, Atmosphere building, Grey boxing, Rapid prototyping

Environment Design (Unity 3D): Scene layout, Props, Lighting, Fog, Particles, Post-processing

Tools: Unity 3D, GitHub, Graphic Design, Photo Editing, Video Editing, C# Scripting (AI-assisted)

Languages: English (Fluent), Telugu (Fluent), Hindi (Intermediate)

EDUCATION

B.Sc. Computer Science & Game Development · Backstage Pass Institute of Gaming, Hyderabad (JNAFAU)	Graduated 2026
Intermediate — MPC · Urbane Junior College, Hyderabad	2020–2022
Matriculation — Class 10 (CBSE) · Shivaji Vidyapeeth, Hyderabad	2020
