Listening to Music

SUMMARY

Game Designer and Level Designer with multiple shipped and published titles across PC and itch.io, and console development experience on Xbox Series X|S. Selected for Microsoft's Xbox Developer Acceleration Program (DAP) — recognition awarded to high-potential indie titles. Specialises in atmospheric horror, environmental storytelling, level pacing, and rapid prototyping. Experienced across the full pipeline from concept and GDD through to production and release, in both solo and collaborative team environments.

EXPERIENCE

Game Designer Intern — IDZ Digital

Remote(WorkfromHome) · Feb2026–June 2026

- Designed and prototyped horror game concepts as the studio expanded into the horror genre
- Contributed to level layouts, atmosphere design, gameplay pacing, and environmental storytelling
- Collaborated directly with developers and artists to translate design vision into playable builds

ACHIEVEMENT

Microsoft Xbox Developer Acceleration Program (DAP) — Sermon selected as a High-Potential Indie Title, 2025.

SHIPPED PROJECTS

Sermon—Unity3D(PsychologicalHorror) · ID@XboxSupportedTitle,2025
Level Designer & Environment Designer · Team: Vinil (Game Designer & Programmer)

- Designed full level layout for slow-burn, sleep-paralysis-inspired tension and player flow
- Crafted atmospheric environments using lighting, fog, shadows, and prop composition to build surreal dread
- Built environmental storytelling to support a dreamlike, psychological horror narrative
- CollaboratedviasharedGitHub repository, committing level and environment updates independently

59,200+ views · 11,800+ downloads on itch.io

Oblation — Unity 3D (Psychological Horror), 2026
Level Designer & Environment Designer · Team: Vinil (Game Designer & Programmer)

- Designed level layouts and player flow supporting slow-burn tension around loss, grief, and ritual
- Placed environmental boundaries, walls, and props to create familiar-yet-uneasy domestic spaces
- Structured playable spaces to complement intimate dialogue, ritual mechanics, and guilt-driven pacing
- Curatedlighting,propcomposition, and atmosphere alongside the programmer

17,500+ views · 2,740 downloads on itch.io

Septem: The Preparation — Unity 3D (Psychological Horror), 2026
Level Designer & Environment Designer · Team: Vinil (Game Designer), Sushant (Programmer)

- Designed level layout emphasising subtle tension and pathing through ordinary, charged spaces
- Integrated environmental storytelling to reveal narrative through clues, implication, and prop placement
- Handledscenecompositionfora seamless, unsettling exploration experience

34,300+ views · 4,081 downloads on itch.io

Housebound — Unity 3D (First-Person Horror), 2025
Solo Developer — Game Designer & Level Designer

- Built a complete first-person horror game solo in 2 days — concept, level design, lighting, UI, and release
- Designed the full gameplay loop, AI behaviour, event sequencing, and HUD interactions end-to-end

The Pursuit of Happiness — Global Game Jam (48-hour), 2024
Game, Level & Environment Designer · Team: Ashish (Game Designer), Bhavesh (Programmer), Sameer (UI/UX)

- Designed full maze layout and obstacle placement for tension and player flow; controlled atmosphere with fog, lighting, and pacing for suspense
- Created promotional video showcasing gameplay highlights and tension

IN DEVELOPMENT

- Fragments of Dread: Mother's Whisper — PSX-style horror, exploration, multiple endings
- Fragments of Dread: Burger Piz — Horror, AI voice mimicry, dynamic environment shifts
- Ward 13 — Atmospheric hospital horror, psychological tension

PARTICIPATION

- Global Game Jam 2024 — Participant
